

Imagine a hot shower

The moment you arrive home

Control your home appliances even when you are not there

HomiSmartTM
The Connected Family

HomiSmart is a family of interconnected smart sockets that help you and your family stay connected, made to ease your family's life.

Now, with the HomiSmart family you can easily control your home electrical functions using your computer, tablet or smartphone, and begin saving time, money and energy.

It is time to connect to a new technology – The HomiSmart family.

INA - In-wall smart Switch

Meet Ina, the in-wall switch. Ina has one thing in mind - saving precious time, so you can focus on what's really important. Spend more time with your family, enjoying life and other activities, and leave the menial tasks to Ina. Pair Ina with Meni, the main unit and preset timers according to your specific lifestyle and needs. This Homismart family member can save you big time.
